Subject index

Acrylamide polymerization
Electroinitiated polymerization of acrylamide in DMF. Attempts at an interfacial model (Otero, Marijuán) 153
Acrylonitrile electrohydrodimerization
Mechanistic studies of the electrohydrodimerization of acrylonitrile (Kinlen, King) 133
Alcoholic solvents
SNIFTIRS study of the behaviour of the spectrum of carbon monoxide adsorbed on a platinum electrode in alcoholic solvents (Russell et al.) 219
Amines
Anodic oxidation of some tertiary amines (Larumbe et al.) 241
Anthracene
Substituent effects on the reaction kinetics of electrogenerated 9-substituted 10-phenylanthracene cation radicals with water and methanol (Oyama et al.) 61

Butanol
The adsorption behaviour of n-butanol at a free surface of formamide (Przyłuska, Jastrzębska) 187

Carbon monoxide
SNIFTIRS study of the behaviour of the spectrum of carbon monoxide adsorbed on a platinum electrode in alcoholic solvents (Russell et al.) 219
The influence of carbon monoxide on hydrogen absorption by thin films of palladium (Czerwiński et al.) 233
Carbon-paste electrode
Voltammetry of silver(I) using a carbon-paste electrode modified with 2,2′-dithiodipyridine (Sugawara et al.) 249
Chloride ions
Polarization behaviour of a cobalt rotating disc electrode in sulphuric acid solutions in the absence and presence of chloride ions (Sazou, Pagitsas) 171
Chronoamperometry
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 1. Linear voltammetric and chronoamperometric data for the reduction processes at Au electrodes (Tomczyk, Mordarski) 85
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 2. Theory of linear scan voltammetry and potential-step chronoamperometry for the reaction $m\ O + n\ e^- \rightleftharpoons q\ R$ initially at equilibrium (Bieniasz) 101
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 3. Quantitative analysis of the linear scan voltammetric curves for the first reduction process at Au electrodes (Tomczyk, Bieniasz) 111
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 4. Quantitative analysis of the potential-step chronoamperometric curves at Au electrodes (Mordarski) 123
Cobalt
Electrodes modified with cobalt hexacyanoferrate (Joseph et al.) 263
Polarization behaviour of a cobalt rotating disc electrode in sulphuric acid solution in the absence and presence of chloride ions (Sazou, Pagitsas) 171
Cold fusion
Helium production during the electrolysis in D_2O in cold fusion experiments (Bush et al.) 271
Current response
Conducting polymer based electrochemical sensors: theoretical analysis of current response under steady state conditions (Lyons et al.) 1

Cyclic voltammetry
Cyclic and linear sweep voltammetry at tubular electrodes. Part V. Kinetic processes (Singh et al.) 17

Deuterium
Helium production during the electrolysis in D_2O in cold fusion experiments (Bush et al.) 271
The observation of tritium in the electrolysis of D_2O at palladium sheet cathodes (Mengoli et al.) 279

Diffusion
Two-component diffusion and reaction in rotating disk voltammetry. Can fast kinetics force equilibration in the diffusion layer? (Texter) 257

Dimethylformamide
Electroinitiated polymerization of acrylamide in DMF. Attempts at an interfacial model (Otero, Marijuán) 153

Dithiodipyridine
Voltammetry of silver(I) using a carbon-paste electrode modified with 2,2′-dithiodipyridine (Sugawara et al.) 249

Equilibrium in diffusion layer
Two-component diffusion and reaction in rotating disk voltammetry. Can fast kinetics force equilibration in the diffusion layer? (Texter) 257

Formamide
The adsorption behaviour of n-butanol at a free surface of formamide (Przyłuska, Jastrzębska) 187

Glucose
Bioelectrochemical responses of the polyaniline glucose oxidase electrode (Mu et al.) 7

Glucose oxidase electrode
Bioelectrochemical responses of the polyaniline glucose oxidase electrode (Mu et al.) 7

Gold electrodes
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 1. Linear voltammetric and chronoamperometric data for the reduction processes at Au electrodes (Tomczyk, Mordarski) 85
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 2. Theory of linear scan voltammetry and potential-step chronoamperometry for the reaction $m\ O + n\ e^- \rightleftharpoons q\ R$ initially at equilibrium (Bieniasz) 101
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 3. Quantitative analysis of the linear scan voltammetric curves for the first reduction process at Au electrodes (Tomczyk, Bieniasz) 111
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 4. Quantitative analysis of the potential-step chronoamperometric curves at Au electrodes (Mordarski) 123

Heavy water
Helium production during the electrolysis in D_2O in cold fusion experiments (Bush et al.) 271
The observation of tritium in the electrolysis of D_2O at palladium sheet cathodes (Mengoli et al.) 279

Helium
Helium production during the electrolysis in D_2O in cold fusion experiments (Bush et al.) 271

Hexacyanoferrate ion
Electrodes modified with cobalt hexacyanoferrate (Joseph et al.) 263

Hexylamine
Reaction between pyridoxal and hexylamine. Electrochemical and spectrophotometric studies on the Schiff base formation (Pineda et al.) 53

Humidity
Effect of curing-humidity on recast-Nafion films (Striebel et al.) 289

Hydrogen absorption
The influence of carbon monoxide on hydrogen absorption by thin films of palladium (Czerwiński et al.) 233

Impedance spectroscopy
Impedance spectroscopy of an ideally polarizable electrode (Grafov, Elkin) 31

Linear sweep voltammetry
Cyclic and linear sweep voltammetry at tubular electrodes. Part V. Kinetic processes (Singh et al.) 17

Linear voltammetry
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 1. Linear voltammetric and chronoamperometric data for the reduction processes at Au electrodes (Tomczyk, Mordarski) 85
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 2. Theory of linear scan voltammetry and potential-step chronoamperometry for the reaction $m\ O + n\ e^- \rightleftharpoons q\ R$ initially at equilibrium (Bieniasz) 101
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 3. Quantitative analysis of the linear scan voltammetric curves for the first reduction process at Au electrodes (Tomczyk, Bieniasz) 111
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 4. Quantitative analysis of the potential-step chronoamperometric curves at Au electrodes (Mordarski) 123
Lithium carbonate
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 1. Linear voltammetric and chronoamperometric data for the reduction processes at Au electrodes (Tomczyk, Mordarski) 85
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 2. Theory of linear scan voltammetry and potential-step chronoamperometry for the reaction $m\ O + n\ e^- \rightleftharpoons q\ R$ initially at equilibrium (Bieniasz) 101
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 3. Quantitative analysis of the linear scan voltammetric curves for the first reduction process at Au electrodes (Tomczyk, Bieniasz) 111
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 4. Quantitative analysis of the potential-step chronoamperometric curves at Au electrodes (Mordarski) 123

Mechanistic studies
Mechanistic studies of the electrohydrodimerization of acrylonitrile (Kinlen, King) 133
Mercury
Two-dimensional phase formation by heterocoalescence of a surface active droplet at the aqueous/mercury interface (Svetličić, Tomaić) 41
Methanol
Substituent effects on the reaction kinetics of electrogenerated 9-substituted 10-phenylanthracene cation radicals with water and methanol (Oyama et al.) 61

Nafion
Effect of curing-humidity on recast-Nafion films (Striebel et al.) 289

Oxygen electrode
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 1. Linear voltammetric and chronoamperometric data for the reduction processes at Au electrodes (Tomczyk, Mordarski) 85
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 2. Theory of linear scan voltammetry and potential-step chronoamperometry for the reaction $m\ O + n\ e^- \rightleftharpoons q\ R$ initially at equilibrium (Bieniasz) 101
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 3. Quantitative analysis of the linear scan voltammetric curves for the first reduction process at Au electrodes (Tomczyk, Bieniasz) 111
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 4. Quantitative analysis of the potential-step chronoamperometric curves at Au electrodes (Mordarski) 123

Palladium
The influence of carbon monoxide on hydrogen absorption by thin films of palladium (Czerwiński et al.) 233
Palladium sheet cathodes
The observation of tritium in the electrolysis of D_2O at palladium sheet cathodes (Mengoli et al.) 279
Phenylanthracene
Substituent effects on the reaction kinetics of electrogenerated 9-substituted 10-phenylanthracene cation radicals with water and methanol (Oyama et al.) 61
Platinum electrode
A direct and indirect radiotracer study of the adsorption of serine at a platinized platinum

electrode (Horányi) 211
SNIFTIRS study of the behaviour of the spectrum of carbon monoxide adsorbed on a platinum electrode in alcoholic solvents (Russell et al.) 219
Polarizable electrode
Impedance spectroscopy of an ideally polarizable electrode (Grafov, Elkin) 31
Polarography
Reaction between pyridoxal and hexylamine. Electrochemical and spectrophotometric studied on the Schiff base formation (Pineda et al.) 53
Polyaniline
Bioelectrochemical responses of the polyaniline glucose oxidase electrode (Mu et al.) 7
Polymer-based electrochemical sensors
Conducting polymer based electrochemical sensors: theoretical analysis of current response under steady state conditions (Lyons et al.) 1
Polypyrrole-coated electrode
Electrochemical oxidation and reduction of PQQ using a conducting polypyrrole-coated electrode (Shinohara et al.) 75
Prussian Blue
Electrodes modified with cobalt hexacyanoferrate (Joseph et al.) 263
Pyridine
Adsorption of pyridine on the (210) face of silver (Hamelin et al.) 195
Voltammetry of silver(I) using a carbon-paste electrode modified with 2,2′-dithiodipyridine (Sugawara et al.) 249
Pyridoxal
Reaction between pyridoxal and hexylamine. Electrochemical and spectrophotometric studies on the Schiff base formation (Pineda et al.) 53
Pyrroloquinoline quinone
Electrochemical oxidation and reduction of PQQ using a conducting polypyrrole-coated electrode (Shinohara et al.) 75

Quinoline quinone
Electrochemical oxidation and reduction of PQQ using a conducting polypyrrole-coated electrode (Shinohara et al.) 75

Radiotracer study
A direct and indirect radiotracer study of the adsorption of serine at a platinized platinum electrode (Horányi) 211
Rotating disk voltammetry
Polarization behaviour of a cobalt rotating disc electrode in sulphuric acid solutions in the absence and presence of chloride ions (Sazou, Pagitsas) 171
Two-component diffusion and reaction in rotating disk voltammetry. Can fast kinetics force equilibration in the diffusion layer? (Texter) 257

Schiff base formation
Reaction between pyridoxal and hexylamine. Electrochemical and spectrophotometric studies on the Schiff base formation (Pineda et al.) 53
Serine
A direct and indirect radiotracer study of the adsorption of serine at a platinized platinum electrode (Horányi) 211
Silver
Adsorption of pyridine on the (210) face of silver (Hamelin et al.) 195
Voltammetry of silver(I) using a carbon-paste electrode modified with 2,2′-dithiodipyridine (Sugawara et al.) 249
SNIFTIRS
SNIFTIRS study of the behaviour of the spectrum of carbon monoxide adsorbed on a platinum electrode in alcoholic solvents (Russell et al.) 219
Sodium carbonate
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 1. Linear voltammetric and chronoamperometric data for the reduction processes at Au electrodes (Tomczyk, Mordarski) 85
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 2. Theory of linear scan voltammetry and potential-step chronoamperometry for the reaction $m\ O + n\ e^- \rightleftharpoons q\ R$ initially at equilibrium (Bieniasz) 101
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 3. Quantitative analysis of the linear scan voltammetric curves for the first reduction process at Au electrodes (Tomczyk, Bieniasz) 111
Kinetics of the oxygen electrode reaction in molten Li + Na carbonate eutectic. Part 4.

Quantitative analysis of the potential-step chronoamperometric curves at Au electrodes (Mordarski) 123

Steady-state
Conducting polymer based electrochemical sensors: theoretical analysis of current response under steady state conditions (Lyons et al.) 1

Sulphuric acid
Polarization behaviour of a cobalt rotating disc electrode in sulphuric acid solutions in the absence and presence of chloride ions (Sazou, Pagitsas) 171

Surface active droplet
Two-dimensional phase formation by heterocoalescence of a surface active droplet at the aqueous/mercury interface (Svetličić, Tomaić) 41

Thin films
The influence of carbon monoxide on hydrogen absorption by thin films of palladium (Czerwiński et al.) 233

Tritium
The observation of tritium in the electrolysis of D_2O at palladium sheet cathodes (Mengoli et al.)

Tubular electrodes
Cyclic and linear sweep voltammetry at tubular electrodes. Part V. Kinetic processes (Singh et al.) 17

Two-dimensional phase formation
Two-dimensional phase formation by heterocoalescence of a surface active droplet at the aqueous/mercury interface (Svetličić, Tomaić) 41

UV–Vis spectroscopy
Reaction between pyridoxal and hexylamine. Electrochemical and spectrophotometric studies on the Schiff base formation (Pineda et al.) 53

Voltammetry
Voltammetry of silver(I) using a carbon-paste electrode modified with 2,2′-dithiodipyridine (Sugawara et al.) 249
